

Waterless Stock Pot Cookers

The B+S Black waterless stock pot cooker is constructed on a solid stainless steel frame complete with a thick stainless steel plate, ensuring prolonged life. This unit is complete with an air gap located between the ring and the cooking deck eliminating the need for water deck cooling. This ensures that exposed surface temperatures are kept to a minimum and buckling does not occur.

This unit does not require any water deck cooling and is powered by an 105Mj 24 jet chimney burner or 126Mj 18 jet duck burner which are fitted with flame failure as standard. The cast-iron trivet has extended fingers and comes as a standard allowing for more efficient gas combustion while a lever handle gas control allows for greater regulation of flame setting.

All external surfaces are made of AISI 304 stainless steel that is strong and durable. The deck is a 1.5mm pressed top which allows for ease of cleaning around the ring area. Front waste gutter allows for greater ease in cleaning while a heavily insulated long skirt unflued cast iron ring eliminates radiant heat.

MODEL	LENGTH (mm)	DEPTH (mm)	HEIGHT (mm)	GAS CONSUMPTION (Mj/h)			
				CB		DB	
				NG	LPG	NG	LPG
UFWWSPD-1	650	900	1300	105	75	126	90

Options

- Duck burners (DB)
- Chimney burners (CB)

WARRANTY

- AISI 304 grade stainless steel
- Combination of no water deck cooling and timed water flows to the laundry arm ensures a reduction in water consumption, resulting in a decrease in sewerage usage and waste discharge fees
- Pressed top allows for easy cleaning around ring area
- Lever action gas control
- Front waste gutter allows for greater ease in cleaning
- Heavily insulated long skirt unflued cast iron rings eliminates radiant heat.
- Heavy duty stainless steel frame construction throughout
- 1.5mm thick top ensuring prolonged life
